

Superintendent's Corner

Kirk McMahon
Superintendent

April 20, 2013

On Wednesday, April 17th Andrea Bigam, district Alpha teacher, Debra Payne, Gifted Coordinator, and their students hosted the annual Alpha Fair at Nicholas Drive Elementary. The event was well attended by students, parents, family and staff. It was an amazing night highlighting the student research projects, the use of technology to score and record information, and celebrating Gifted Education in the Circleville City Schools. I want to commend all of the students who participated for doing such great work!

I had a wonderful experience at the 4th Grade Spring Music program on Tuesday evening. It always amazes me how well our students perform. I want to commend and thank Ms. Petty, Elementary Music Teacher, for all of her hard work in choreographing the music for a great evening of entertainment.

Best of luck to students in grades 3-8 as they take the Ohio Achievement Tests during the next several weeks!

As always, if you have any questions on any district issues, please give me a call.

Go Tigers!
