

Superintendent's Corner

Kirk McMahon
Superintendent

June 22, 2013

We are approaching the 6-month master schedule benchmark for the completion of the new Circleville High School. If you have not had the opportunity to view the progress, I would encourage you to drive or walk to the east parking lot of the current CHS and witness for yourself the progress our construction team is making. We remain on schedule to complete the high school in December and occupy the space beginning in January 2014. We remain hopeful that the weather, our suppliers and the team will stay on schedule. You may also view the progress on our website.

We completed Summer School yesterday. The students recovered high school credits and completed the OGT so they may remain on schedule to graduate with their class. I would like to thank the staff who taught this summer for the benefit of our students.

As always, if you have any questions on any district issues, please give me a call.

Go Tigers!
