

# Superintendent's Corner

Kirk McMahon  
Superintendent

March 2, 2013

The debate over whether or not students should be permitted to “ storm the court ” after a huge win in basketball is all over Talk Radio this week. I think a little or even a lot of excitement on school campuses, including ours is a good thing. The Ohio Department of Education finally released the Local Report Cards this week. I am very excited to announce that our district met 24 of 26 indicators and were designated as an EXCELLENT school district! Additionally, the CCS was rated 51st out of 832 public school districts across Ohio on Value-Added scores. You may ask, “ What is Value-Added? ” Value-Added data is one measure of student achievement used to determine if a student obtained one year ’ s worth of growth during any given school year. Last school year, our students and staff exceeded one year ’ s growth. Now THAT is a reason to “ storm the court! ”

I would like to congratulate our students and entire staff for their hard work and dedication on achieving our EXCELLENT status. I would also encourage you to congratulate them as well.

As always, if you have questions on any district issues, please give me a call.

***Go Tigers!***
